

**"...Love your neighbor as yourself"**

**Matthew 22:39**

In the process of support, encouragement and motivating churches from the Republic of Moldova to run Day Care Center, YFCM frequently faces issues such as meeting strict necessary needs in order to deploy a ministry, lacks of building for activities, kitchen that would meet sanitary standards, bathrooms, etc. These are the main reasons that make impossible for our partners (local churches) to run the ministry.

In spite of all these, one thing is certain: ...if God gives a church a clear vision to work with children, He will definitely provide ways to run this ministry in a good and effective way.

One of God's answers to such a need is **Livingstone Foundation**.

**Livingstone Foundation** is a Dutch charity organization, founded in 1999, on October 28, who work with local communities around the world in order to help them in developing and meeting people's stringent needs.

**livingstone**

This year, especially during summer time, 7 churches from the Republic of Moldova from different locations have benefited from the help of 8 Dutch teams, especially building Day Care Centers.

In total, there were involved 130 people of different age, with different activities background, who left their homes, families and country in order to server children and churches in our country.

Construction work time combined with a time for day camp for children. Children had a very nice time spending those days with "people from a different country"!

**The work done with common efforts was a great blessing for local churches, an encouragement for center's workers, so they would keep their work and make their activities better. Churches gave a positive feedback and they were happy to collaborate.**

The team from

the village of **Miciurin** says:

*"We are so much grateful for those hearts who came, who were listened to God's calling in order to come here and give us a hand. We were wondering: how can one leave his comfort home and go to a needy country, in an unknown village with needy people, and live with no conditions?! Only the Lord Jesus can put this into our hearts, who has made us a family in Him. They are far away, but we feel their hearts right here with us. We thank everyone who was involved! Also,*

*we'd like express our gratitude to parents, pastors and other people who contributed to this project!!!"*

Beside the fact, that all these actions are a great blessing for the citizens of the Republic of Moldova, at the same time, it is a great encouragement for Dutch teams, who contribute to these ministries financially, physically, emotionally enlarging God's Kingdom.

**Together we want to help developing our communities and to build a better world!!!**
