

*"...for your work shall be rewarded, saith the LORD..."*

**Jeremiah 31:16**

**Graduation** event within the *"Oak House"* project is the main event that **Youth for Christ Moldova** had in June.

*"Oak House"* project's life is tumultuous, agitated, always-on alert, every year we draw a line... we stop and make calculation and analyses... Why did we work, what are the results, what our mistakes were and what we should not do...

At the end of school, at the Graduation, there are tears of joy for farewell... Those girls who graduate from schools, they also graduate from our project. New friendships, sleepless night spent on long talks, some situation on the edge that some beneficiaries had to go through and our team had to deal with it, strong love for God, some of them got to know God during these years, all of them make the Graduation day a bit sadder...!

This year, we had four graduated girls (three graduated from superior institutions and one from College). On 02.06.2018 we organized an event of Graduation to celebrate it within the *"Oak House"* project where approximately 50 people participated.

Yes, it was a wonderful and memorable day with lots of emotions, nice speeches of thanks, testimonies and of course a meal of love...! All the girls are well prepared for a job interview, they are ready to work and gain their own income, they can have impact and influence onto other people's lives.

...However, there is no big break for the working team. Admission period has started! We have to select nine new girls from too many requests we've received. Interviews are upcoming, new life stories to find out, new important decisions to make!

This year interviewed 26 girls. We have to choose, and this is the most difficult moment in our work... Who are we, to decide who's worthy and who's not? How to comment and explain your decision?.. We 100% trust in the Lord! It is His ministry; we are only obedient tools in His hand that never fails!

Everyone who's reading this, please pray for us: for beneficiaries we work with, for our team, for those who care for this project and provide finances for it! We need your prayers! We work with people and we'd like to show them a better and happier perspective in life which is the Lord Jesus!
